Introduction:

I grew up in Romania racing Group A and B rally cars, competing in both national and international events. After moving to the United States, I had the privilege of attending several renowned racing schools and furthered my knowledge of Porsche racing under the guidance of legendary drivers such as Hurley Haywood, Pat Long, and other Porsche Motorsport North America professionals.

Today, I compete in multiple disciplines across both prototypes and GT cars. I currently race a Ligier LMP3 Prototype JS P320 with Forte Racing—US Racetronics and a Porsche Manthey 911 GT3R with Flying Lizard Motorsports. I also campaign a Porsche 992 Cup Car in Carrera Cup North America and endurance events with MRS (Molitor Racing Systems).

My racing portfolio spans a wide variety of prestigious events and championships, including the Baja 1000, King of the Hammers off-road desert race, Pike's Peak International Hill Climb, Porsche Rennsport Reunion (P2 in Flacht Group at RR7 in 2023), Carrera Cup North America, IMSA, HSR, SRO, Porsche Pirelli Trophy, the Thunderhill 25 Hours, the Rolex 24 Hours of Daytona (podium finish), COTA 24 Hours, Sebring 24 Hours (podium finish), Lamborghini Super Trofeo USA, Trans Am XGT Cars Series (podium), Formula 3, and numerous club races with SCCA, NASA, POC, and PCA.

In addition to circuit and endurance racing, I continue to participate in international rallies, including prestigious vintage events such as the Tour Auto, Mille Miglia, and Modena Cento Ore.
